AMS COMPACTED SOIL SAMPLER COMPLETE

PART# 58080

DESCRIPTION

Save time and energy in soil conditions where soil probes & slide hammers just won't get the job done! The AMS Compacted Soil Sampler works great for obtaining "composite" soil samples in hard compacted and frozen soils. The 1-1/16" x 21" Flighted Auger with carbide bit may be connected to any 1/2" chuck drill. The entire unit assembles/ disassembles in seconds & the stainless steel footplate ensures quality samples & easy decontamination.

Sampling Equipment

PowerProbe

Well Management

Pest Control
